The unrivaled range of Euro Grade Safes provides a robust solution for storing money and valuables in either domestic or commercial environments

EURO GRADE

Each safe is given a cash rating, depending on its ability to resist attack, which is designed to help you choose the model which best meets your needs.

Every Securikey Euro Grade product is independently approved and certified after undergoing a rigorous and exhaustive series of technical and practical tests for use within a diverse range of applications and environments. This is signified by the issuing and mounting of the appropriate badge.

There are 6 grades in the range

Euro Grade "0" providing £6,000 cash cover / £60,000 for valuables
 Euro Grade "1" providing £10,000 cash cover / £100,000 for valuables
 Euro Grade "2" providing £17,500 cash cover / £175,000 for valuables
 Euro Grade "3" providing £35,000 cash cover / £350,000 for valuables
 Euro Grade "4" providing £60,000 cash cover / £600,000 for valuables
 Euro Grade "5" providing £100,000 cash cover / £1,000,000 for valuables

The above ratings are a method of classifying the safes for insurance companies but still may have to be verified with the institution

Modifications to a safe such as tube and rotary deposits will affect the rating

Insurance values are in pound sterling and euro values are generally at current exchange equivalents

Securikey Euro Grade 0 safes feature

EURO GRADE 0

£6,000 suggested overnight cash cover (£60,000 valuables)

Independently tested and certified by VdS test house

Certified according to EN 1143-1 Security Grade 0

Designed for use in the home or light commercial

Housesafe range of 3 underfloor safes are an economic way of protecting cash, valuables, vital documents and items of sentimental value

Available in three sizes, they are secured with a high-quality Mauer 8 lever President safe lock

£3,000 cash / £30,000 valuables insurance rating

Aperture: 200 x 200mm

Underfloor safes are prone to humidity / moisture problems if not opened regularly
Put items in air tight containers before inserting into underfloor safes
This will help prevent tarnishing of valuables and damage to paper / cash
